

This is our story

THE MCCOLLUM FAMILY

Hello

Hi, we are Hali & Matt McCollum. We wanted to thank you for taking the time to get to know us a little. It is a dream for us to be parents. We would be honored to love, protect & nurture this child. Thank you for your bravery, compassion & strength.

We met the good ole fashion way, online! Matt was super busy with a new work project & Hali was a few days from starting her next semester in nursing school. We both were reluctant to even go on this date. We are so glad we did! We met at a coffee shop & discovered that although we came from very different backgrounds, Hali has a giant family, Matt a very small one, we also had so much in common. We both love travel & outdoor activities, we believe creating memories are more important than things. We share a love for animals, & both are wanting a family.

Getting TO KNOW MATT

I grew up in Austin, Texas - the live music capital of the world, so of course my parents were folk musicians. As a child I remember them jamming on guitars around the kitchen table.

I have always loved being outdoors & really fond of animals & exploring nature.

My family is very small, but close. I have an older sister Jenny in California, we have a great relationship. My father passed when I was 27, but my mom had been remarried to Tom since I was 13 & he had stepped in as father. We see mom & Tom every weekend.

Favorite Food: Sushi
Favorite thing to do on the weekends: Making a big breakfast & doing anything outside
Favorite animal: DOG

Getting TO KNOW MATT

Following high school I enlisted in the military reserves while attending Texas State University, where I would graduate Magna Cum Laude in 2005 with a degree in Finance. I have worked the last 13 years for a non-profit CDC that helps small businesses receive the financing they need to grow. I sincerely love what I do.

I also love to travel, exercise & eat healthy. I read about nearly anything, and the occasional Netflix binge.

Favorite music: Jazz
Favorite movie: Gladiator
Favorite Book: Anything non-fiction or history
Biggest regret: NONE!

Matthew

THROUGH HALI'S EYES

I truly believe I have met the **man with the biggest heart**. **Matt is my best friend** for many reasons. His kindness, intelligence, strength & childlike spirit make him so much fun to share this life with. I have people tell me that Matt is funniest person they know. **He really is hilarious** & he also keeps me on my toes. He is always playing, hiding in places, jumping out scaring me, wrestling...**this man needs a child!!** Matt is healthy and strong and is often compared to Clark Kent & **superman**. He is so kind, he never speaks ill will on anyone, he would rescue every animal on the planet if he could. Matt can tell if I am having a bad day & just does little things without saying a word to make things better. **He is his mother's only child** & goes above and beyond to make sure she is loved and protected. Matt is incredibly smart and it's impressive how he enjoys learning, he reads history books regularly because he loves the subjects. **He is adventurous**, having travelled to so many interesting places & then joining me on more travel adventures, we never want that to stop. He is always up for something new. If I suggest any fun thing to do, this man is by my side. **I won the lottery in spouses.**

Hali

THROUGH MATT'S EYES

Hali is easily the most compassionate, thoughtful, considerate person I know, so it's no surprise she decided to make nursing her profession. But she is also adventurous, hilarious, hard working, intelligent, **authentic, loving**, and I have the great fortune of getting to spend my days in her company. One of her qualities that I love most is that she is one of the very few people I have known who **will go out of her way to help those in need** - whether they be friends, family, or stray animals. It's not a decision she consciously makes, it's a compulsion she feels as a result of her **boundless empathy**. Even around the house, Hali is constantly nurturing something - whether it be the family dog, family cat, various house plants, or our doomed backyard (not her fault, blame the drought). Ever since I've known her, Hali has wanted more than anything to be a mom. Her friends, even from a young age, nicknamed her, "**the baby whisperer**" because of the ease with which she relates to children of all ages. All of her young nieces and nephews call her **Aunt Ha-Ha**, because she is so playful and always makes them laugh. She is energized in the presence of children, and children, in turn, clearly love being around her.

Our home

AND NEIGHBORHOOD

Our home is warm & inviting with a beautiful big back yard. We have fun animal neighbors (& people) & we live just blocks away from downtown Buda filled with shops, restaurants. The Buda Amphitheater & City Park is at the end of our street always catering fun family activities.

We live in a cute little 3 bedroom house in the historic district of Buda, Tx.

OUR LIFE *Together*

We spend time
with family &
friends when we

can. We do
exciting things
like going to
festivals, horse
back riding or
even rafting!

Mostly though, we
enjoy a nice walk
or hike, bike ride
or just relaxing at
home with a
movie.

Making MEMORIES ALL OVER THE WORLD

There is no place like home, but when we aren't home, traveling is one of our most favorite things to do. We have been to many places in the world, but not nearly enough. We can't wait to share the world with the little one!
